# UNIQUE SELLING POINT

**PLANETHEIGHTS**  
CONSTRUCTION & PROJECTS

The unique selling point of **Planet Heights Construction** is embedded in its business strategy. It is in line with the philosophy of the company, the company management and staff have experience, passion and believe in developing long lasting relationships with clients.

The company focus is on aggressively penetrating the built environment. The company believes that the commercial and residential markets needs a company that is flexible, reliable, professional and able to give an outstanding service to its clients and ensures that its clients receive the best value for their money.

To assess the effectiveness and relevance of **Planet Heights Construction's** business strategy, the internal and external business environment were assessed to determine the strengths, weaknesses, opportunities, and threats facing the company.

Below is a summary of some of the strengths and opportunities:

## Strengths

- **Planet Heights Construction** has a visionary leadership and skilled staff, competent to deliver successful projects since establishment in 2008
- Clear vision and mission with emphasis on quality of service
- Positive corporate culture with emphasis on corporate social responsibility
- Proven ability to maintain long term, profitable relations with customers, stakeholders, suppliers and local sub-contractors is a competitive advantage
- Legally compliant and also member of professional bodies

## Weaknesses

- Construction industry is recession proof as it continues to flourish even at the worst state of the economy
- Unlimited opportunities in remodelling, construction and renovation of residential and commercial properties
- Wider market and customer base in private sector
- The inequalities in the industry create an opportunity for HDI contractors to enter the national market
- Empowerment of HDI contractors brings equitable distribution of work in the industry
